

K-Love serves me every day from morning to night. I know so many people who also love it and it is not unusual for me to pull up to a stop light and find another KLove listener right there next me worshiping the Lord. I know that KLove is in the best interest of the public because it does not promote profanity in any way. We are blessed to have KLove and it would be wrong for anyone to take it away from us. We the listeners pay for it and we the listeners should always have it available to us.
